

# Compass HQIC NHSN Quick Takes

**Coming Soon | August 2021**

## Overview

The Compass NHSN Quick Takes is a series of six 5-minute videos where an infection prevention subject matter expert walks through various aspects of navigating the national healthcare safety network (NHSN) reporting system.

## Target Audience

Anyone who has or needs access to NHSN.

## Courses

- + Accessing NHSN
- + Reporting Plan Set-Up
- + Entering a NHSN Event
- + Run + Review Report Functions
- + MDRO Basics
- + Validate NHSN Data

## Speaker Information

Joleen Strosahl, MSA, MSN, RN, CIC, is an infection preventionist at Nebraska Medicine. She conducts surveillance and compliance surveys for all Nebraska Medicine outpatient clinics, both on campus and across the Omaha metro. She also develops and implements COVID-19 surveys for all outpatient clinics. Strosahl received a master's degree in nursing education from Walden University and a master's degree in health service administration from Central Michigan University.
