

National Healthcare Safety Network

Antibiotic Use and Resistance Webinar Series

Overview of Program

The Kansas Healthcare Collaborative, in partnership with the Kansas Department of Health and Environment Healthcare Associated Infections and Antibiotic Resistance (HAI/AR) Program, will be hosting informational webinars regarding the new CMS Antibiotic Usage Reporting (AUR) requirements. The goal of this series is to introduce the NHSN AUR module, reporting requirements, and link facilities to vendors in order to start the enrollment process.

Program Schedule

May 21, 2024
1200-1300 CST

June 4, 2024
1200-1300 CST

June 18, 2024
1200-1300 CST

Session #1

- Recognize the purpose and benefits of reporting to the NHSN AUR module.
- Review the Centers for Medicare and Medicaid Services requirements for Promoting Interoperability participation beginning calendar year 2024, including reporting exclusions.
- Identify where to get started in the process of reporting data to the AUR module.

Enrollment

Please register exactly as your name appears on your medical, pharmacy, or nursing license.

Session #2 and #3

- View demonstrations from CDC validated software vendors: PipelineRx, Vigilanz Cerner Health, Bugsy and Infectious Disease Connect

Meet Our Subject Experts

Jenna Preusker, PharmD

Pharmacy Program Coordinator, University of Nebraska Antimicrobial Stewardship Assessment and Promotion Program and HAI/AR Pharmacist at Nebraska DHHS

Jenna Preusker received her Doctor of Pharmacy degree from the University of Nebraska Medical Center College of Pharmacy. Following residency, Jenna spent 10 years as an infectious diseases pharmacist at a community hospital in Nebraska, where she started an antibiotic stewardship program in both the hospital and their affiliated long-term care facilities and critical access hospitals. In 2022, she joined Nebraska Medicine as the Pharmacy Program Coordinator for the Antimicrobial Stewardship Assessment and Promotion Program and also serves as the Healthcare Associated Infections and Antimicrobial Resistance Pharmacist at Nebraska DHHS. Her primary role is Antimicrobial Stewardship outreach across Nebraska to hospitals, long-term care facilities, outpatient clinics, dialysis centers, and dental clinics, working to build stewardship program infrastructure across facilities.

Kelsey Drouhard, BSN, RN

Clinical Informatics Nurse at Kingman Healthcare Center

Kelsey Drouhard attended Pittsburg State University BSN program in 2013 and has worked at Kingman Healthcare Center for 9 years. She initially started her clinical care in a cardiac step down and ICU before moving to a med surg role at Kingman. She transitioned part time into informatics before the demands became greater and it became a full-time role to keep up with Promoting Interoperability, CMS Regs, and Interfaces for their 3 EHRs.

Lacey Pavlovsky, RN, MSN, CIC, LTC-CIP

Infection Preventionist, University of Nebraska Infection Control Assessment and Promotion Program

Lacey is an Infection Preventionist with Nebraska ICAP and is the Healthcare Associated Infections-Antimicrobial Resistance Infection Preventionist and NHSN Coordination Lead for Nebraska DHHS. Lacey has been with this team since November 2020. Prior to her work in Infection Prevention, she worked in the acute hospital setting as a float pool and pediatric nurse, as well as behavioral health and long-term care. She earned her BSN is from the University of Northern Colorado and her MSN from American Sentinel University. Lacey received her certification in Infection Prevention and Control (CIC) in June of 2017 and Long-Term Care Certification in Infection Prevention (LTC-CIP) in February 2023. She has served as a board member of Nebraska APIC Chapter for 6 years, where she served as the recording secretary, treasurer elect, and treasure from 2018-2022 and is currently serving as the President-elect in 2024.
