

# NHSN AUR Data Submission + ASP Reports

---

For Antimicrobial Usage and Resistance Data

# Automating AU + AR Data Submission to NHSN

# Necessary Elements

---

For PipelineRx to successfully submit AUR data and deliver ASP reports, we only need three data elements:

1. Labs: Microbiology + Susceptibility
2. Patient Location
3. Medication Administration

# Automate AU/AR Data Submission

---

PipelineRx is one of only a few companies validated by the CDC to automate submission of both AU and AR data to the NHSN

- Our software directly interfaces with your EHR to automate data submission of AU/AR data to NHSN
- Eliminate all manual processes of data submission:
  1. Manually pulling and mapping data to NHSN format
  2. Updating mapping each year with NHSN changes
  3. Zipping and uploading files to NHSN for submission
  4. Dealing with errors in submission and resubmission

# Powerful Reporting Advantages

## PipelineRx AUR Reporting Module

Unique, daily reporting superior to currently available government or commercial options.

- User-friendly, modern interface
- Customizable to quickly generate the reports you need
- Broader range of reporting options in addition to NHSN
- Intuitive dashboard for easy program management and measurement
- Ability to drill down into the detail

### NHSN-Provided Reporting

Basic reporting for the AUR Module from the CDC has significant limitations.

- Slow to run and download
- Cumbersome navigation for average user
- Dated and limited reporting options
- Resource-consuming manual process

# Reports Included with PipelineRx Solution

## Antibiotic Starts by:

### Provider

- Broken down by individual provider
- Sort by name or descending value

### Class, Drug + Spectrum Rank

- Filter by: Location, Route, Specific Antibiotic, and Antibiotic Class

### Redundant Therapy

- Identify patients receiving two or more antibiotics overlapping in spectrum of coverage

### Escalation + De-escalation

- Identify patients where the antimicrobial therapy has been escalated, de-escalated or there is no change

# Pricing

# Special Pricing for Kansas Hospitals

## Kansas Hospitals + PipelineRx

Based upon the working relationship between PipelineRx and the Kansas Department of Health and Environment (KDHE), we are proud to offer special discounted pricing for all Kansas hospitals.

- Streamlined contracting process
- Pricing discounted ~50% off standard rates
- Offer ends August 31, 2024

### Let's Talk!

We're excited to hear from you to address any specific questions you may have, walk through the sample reports and discuss pricing.
