Kendra Tinsley, MS, is the Executive Director of the Kansas Healthcare Collaborative (KHC) serving in this role since 2009.

Kendra holds a Bachelor of Arts degree in Psychology and a Master of Science degree in Psychology with a clinical emphasis from Pittsburg State University.

She is a member of the Institute for Healthcare Improvement's (IHI's) Leadership Alliance where she has participated in more than six work groups aimed at the radical redesign of health care. She holds a certificate of completion from IHI's Open School for Health Professions.

Kendra is a National Patient Safety Foundation (NPSF) Certified Professional in Patient Safety (CPPS) and a fellow of the American Hospital Association (AHA)/NPSF Comprehensive Patient Safety Leadership Fellowship.

She's been an AHA Hospital Engagement Network (HEN) Improvement Leader since 2012, as well as, alumnus of the YWCA Women's Leadership Academy.

She worked in behavioral health for 10 years including clinical experience as a Masters Level Psychologist. Prior to joining KHC, Kendra worked for the Kansas Foundation for Medical Care, Inc. (KFMC), the Quality Improvement Organization (QIO) for Kansas, where she facilitated the work of a broad-based group of providers from across Kansas to develop a statewide trauma system. She also provided external quality review for Medicaid managed care behavioral health and substance abuse programs and served as Corporate Compliance Officer.
